

GUIDE FOR YOUR EDUCATIONAL PLAN

These questions are offered as a guide as you work on your educational plan. If other questions or topics are more helpful, they can be substituted. If you and your advisor agree on some other format entirely, that's permitted also. Final approval of your plan rests with your advisor. For an electronic version of this document (which you can use as a template for your plan) and for a couple of samples of completed educational plans, go to the Registrar's website and click on "Guidelines for Graduation."

LOOKING BACK: Thinking about coming to college and your experience so far, considering academics, co-curricular activities, and the personal side of things.

What were you looking forward to in coming to college? How has your experience compared to your expectations?

What has helped or facilitated your success so far at Knox?

What have you enjoyed the most?

What barriers or difficulties have you dealt with in coming to college and/or in your life here at Knox? Have you been able to overcome these difficulties? How so? What difficulties are you currently coping with?

What has had the biggest impact on you?

What interests or talents have you discovered here? What previous interests or talents have you developed further?

What have you chosen for your major and minor fields? What factors contributed to these choices?

What connections can you see between different parts of your experience?

- between your interests before Knox and your interests at Knox
- between your academic interests and non-classroom activities
- between courses that you find engaging

Is there any pattern that emerges from these reflections? Any signals of subjects and activities that are likely to engage your interest into the future?

LOOKING AHEAD: Thinking about the future.

Your next two years at Knox:

- Are there additional subjects and/or skills that you would like to explore, either because they will help you develop the interests you have or because college is a "last chance" to explore some of these?
- What special opportunities might you want to explore? (E.g., internships, study abroad, independent study, summer work). See list of "Special Opportunities: Academic and Co-Curricular."

After Knox:

- Do you have a dream of what you might be doing five years after you graduate from Knox?
- And can you think of some other possible visions of the future as well?
- Are there other things you could be doing during your years at Knox that might help you move successfully into these visions?

PLANS FOR COMPLETION OF GRADUATION GOALS:

Foundation courses:

Arts _____
History and Social Science _____
Humanities _____
Math and Natural Science _____

Specialization:

Major _____

Second field (s) (could be one minor, one additional major, or two minors)

Explain these choices and what connections you see between your fields, if any.

Key Competencies:

Writing _____

Information literacy and
informed use of technology _____

Speaking _____
Quantitative _____

Second Language _____
Diversity _____

Experiential Learning _____

Use your EDR (Educational Development Record) to review the list of courses you've already taken and to see how they are counting towards graduation goals.

To get a copy of your EDR:

Go to the Registrar's page: <http://www.knox.edu/registrar.xml>

Click on: Academic Information for Students and log in.

Login is different for this page than for e-mail.

Your username: Your student identification number

Your password: The last four digits of your social security number

You can print out your EDR from the website.
